CHALLENGE JURISDICTION OF CITY MAGISTRATE to Cabinet Quits After Rioting Kicks

Counsel Queries Right to Hear Libel Charges

Jurisdiction of Magistrate H. L. Howe to hear conspiracy to publish defamatory libel charges against Jack Kent Cooke, Toronto, Harold Dingham, Ottawa, and Dr. Charlotte Whitton, Ottawa, was challenged by counsel for the accused when proceedings opened at the court house Tuesday.

The trio is charged with conspiring to publish in New Liberty magazine an article captioned "Babies for Export", the article dealing with the administration of child welfare in the province. It was based on material assembled by Miss Whitton in a survey of child welfare in Alberta for the Imperial Order Daughters of the Empire. Mr. Cooke is the publisher of the magazine, and Mr. Dingham the author of the article.

Surprise development in the trial was the announcement that George H. Steer, K.C., counsel for Miss Whitton, he being called as a Crown witness. Mr. Steer confirmed that he had been subpoenaed and would be called to the witness stand by prosecuting counsel.

EVERY AVAILABLE seat in the court room was taken, and more than 100 spectators milled outside the courtroom hoping to gain admission. Executive officers of the various IODE chapters in the city were present. Miss Whitton was escorted to the court room by Mr. R. C. Marshall, sergeant of the provincial chapter.

Opening session of the hearing lasted approximately one hour. This time was occupied with formal reading of the charges laid against

Principals in Legal Fight Arrive for Preliminary Hearing

Now Abating

By HOMER JENKS

LONDON, Jan. 27.—(AP)—Alarms over the devaluation of the French franc abated slightly today under the influence of a firm British stand against cheapening the pound sterling.

Traders in the London stock market reversed yesterday's trend away from British government stocks into gold mining shares—a trend based on belief that sterling devaluation could come quickly and that sterling would weaken as a result of the French action.

Today the traders turned back to the government stocks, which rose, and the gold shares slumped.

Talk of sterling devaluation still was heard, despite the assurance by Sir Stafford Cripps, chancellor of the exchequer, in Commons yesterday that there would be no devaluation.

Mr. Cripps' plan to protect the pound was not known, but he was expected to tighten her already rigid measures guarding the movement of money to keep the pound from being undermined.

Process of Law Ponderous, Majestic But Not Without Color as Curtain Raised on Unique Legal Action Here

By STANLEY WILLIAMS

Profound, majestic, and not without color was the process of the law as it unfolded before spectators at the court house Tuesday.

CASE BEFORE the court was

proceeding before Magistrate H. L. Howe, K.C. in police court, as seen in the pictures above, taken from the steps of Edmonton court house.

At the left is Dr. Charlotte Whitton, widely known welfare authority, whose report on welfare administration in Alberta, for the IODE provincial chapter, has aroused widespread controversy. Next is Harold Dingham, Ottawa writer for New Liberty magazine, and at right is S. H. McGee, K.C., counsel for the accused. Mr. McGee is acting with Clarence E. Smith, K.C., Calgary.

On Satellites Fomenting Unrest

Churchill Wants "Yes or No" From Stalin About Future

By EDWARD KERRY
LONDON, Jan. 27.—(AP)—A source very close to Winston Churchill said today that his demand in Commons last week for a settlement with Russia was in effect a call for a meeting of the Big Three to try to reach a realistic agreement between the east and the west.

At a meeting of Conservative party leaders after his Commons speech, Churchill was reported to have interpreted his address as a bid for a round table bargaining session to include Premier Joseph Stalin.

What Churchill wants, a highly authoritative source reported, is a yes or no from Stalin as to whether Soviet satellites will cease fomenting unrest along the border of Greece and giving aid to the leftist guerrillas fighting government forces in that country.

Government Under Fire Three-Pronged Attack On Currency Program

By George Kitchen
OTTAWA, Jan. 27.—(AP)—A three pronged attack on the government's currency conservation measures developed yesterday as the Commons met following the Christmas recess.

THE CRITICISM, coming from the CCF, Social Credit, and the Progressive Conservative benches, marked the resumption of debate on second reading of a government bill to give statutory effect to policies instituted when the U.S. dollar-savings program was launched last November.

Progressive conservative and Social Credit speakers criticized the government's revaluation of the Canadian dollar in 1946 and the newly-imposed prohibition on imports of goods to deprive the United States of essential transportation service.

case last attracted attention all across the continent.

Ponderous was the 35-minute reading of seven charges against Cooke, Dingham and Dr. Whitton.

So long were the charges that Magistrate H. L. Howe, read two of them in order to give a "break" to Clerk S. M. Harnet. After the seven charges had been read, four consolidated charges were entered and read, and the first seven withdrawn.

Majestic was the slow, relentless, unfolding form the hearing took. New faces appeared to answer charges; new spectators looked on and even the "new look" was there, but the process itself was as old as English law.

Colorful were mounted policemen in scarlet tunics, hats and breeches of women and even the ultra-correct dress outside half of counsel.

Because it has been said the case presents a threat to freedom of the press, even American newspapermen and press writers were represented at the hearing.

... a cry back to the early days of the "Red" Government in Alberta.

U.S. and eastern writers, having heard about cold weather in the east but evidently not about Edmonton weather, arrived complete with fur hats, and the mercury at 31 degrees above zero.

A hundred persons jammed into the criminal court room for the trial's beginning. It is a large room, but it takes up with benches, desks, railings, steps and extra chairs that 100 made a full room. A hundred more stood outside, waiting for a peak at accused, mounting, magistrate or judge.

Turkish Official Dies Suddenly

ANKARA, Jan. 27.—(Reuters)—Gen. Kazim Karabekir, president of Turkey's National Assembly, died suddenly yesterday of heart failure. He was an advocate of friendship between Turkey and Russia, which he once said was essential because of the "mutual interests" of the two countries in the Balkans.

Report Fight Flares Over U.K. Treaty

BAGHDAD, Jan. 27.—(AP)—The Iraq cabinet resigned tonight after 24 hours of rioting in which 70 persons were reported killed.

FIGHTING BROKE out last night after Premier Nuri al-Sadr, who negotiated a new treaty with Britain, announced his resignation. He was to remain in office and enforce the accord.

Regent Abdul Ilah broadcast to the country tonight the cabinet's resignation had been submitted and accepted. Previously four ministers and 24 members of the Chamber of Deputies had resigned.

The new Anglo-Iraqi treaty would give Britain troops the right to enter Iraq in the event of war or imminent war. It would curtail British rights to occupy airfields in Iraq. The fields would be turned over to Iraq but British planes would be allowed to continue using them.

Coal Operators' Motion Dismissed

OTTAWA, Jan. 27.—(AP)—Justice Patrick Kerwin of the Supreme Court of Canada today dismissed a motion by the Western Coal-Operators' Association for a court order to enforce a notice of contract termination given to the United Mine Workers of America (U.M.W.).

The operators, whose mines are tied up by a strike of 10,000 men, had petitioned the court to hold the union liable to terminate their contracts as of last Dec. 3. Normally the 18-month contracts would expire March 31.

Justice Kerwin said that any judgment given in favor of the applicants in this particular case would be a precedent for other cases where the union would be liable to terminate their contracts as of last Dec. 3. Normally the 18-month contracts would expire March 31.

The lot for that term has been prepared and contains a number of important cases to be heard during the coming year and it is impossible that the orders should be made and the motions are therefore dismissed with costs.

Food Agreement Cabinet Meeting Called

OTTAWA, Jan. 27.—(AP)—Premier Schuman, minister for commerce, announced today that a cabinet meeting would be called to discuss a proposed food agreement with the British.

The agreement would be a formal agreement to supply a British food mission headed by the British government's chairman-designate of the British overseas food corporation, set out by the British government.

The agreement would be a formal agreement to supply a British food mission headed by the British government's chairman-designate of the British overseas food corporation, set out by the British government.

Cabinet Meeting Called Free Gold Trade Bill For France Rejected

PARIS, Jan. 27.—(AP)—The French national assembly's finance commission rejected the gold trade bill of Premier Robert Schuman's monetary program today.

THE VOTE WAS 15 to 15, with five abstentions.

Commission members said after the closed meeting that only Premier Schuman's own people, Republicans (MRP) and the radical left, were in favor of the measure.

The Socialist joined the Communists in opposition.

An extraordinary meeting of the cabinet was called today to consider the government's position.

The gold trade bill will now be reported on unfavorably to the full assembly, in a speech yesterday the cabinet decided not to automatically kill it.

THE BILL PROPOSED free trade in gold within France.

Schuman told the national assembly in a speech yesterday the gold bill would permit the depletion of the French gold reserves.

What Am I Saying?
By FRANK MORGAN
DREAMS . . .

Odd how a girl who looks like a dream can give a man a dream wake up in the middle of a nightmare.

Government Plans Action

Profiteers Threaten Free Enterprise Plan

QUEBEC, Jan. 27.—(CP)—Labor Minister Mitchell said today that profiteers, more than anything else threaten the system of free enterprise in Canada and the rest of the world and in this country the government "intends to deal with them as they should be dealt with."

Pipeline Carries Oil to Whitehorse

WHITEHORSE, Yukon, Jan. 27.—(CP)—Wellcome water is flowing into this frigid town from Skagway, Alaska at the rate of 25 barrels an hour. Household stoves are really cooking.

The 10-mile-long oil pipe line from Skagway was requested by the United States government to service army forces and headquarters with diesel and stove oil.

The four-inch pipe, constructed during the war and mounted since the summer of 1946 is filled with 2,500 barrels of oil. United States military forces are now using it.

RCAF and Canadian Army boys, along with Whitehorse residents, were right on the spot today with their tanks and canister "flow much" "fill 'er up."

Pearson Speaks Plainly

United Nations Must Re-Form Within Itself

TORONTO, Jan. 27.—(CP)—L. B. Pearson last night deplored the "pretensions of our United Nations organization to a ignoble and aggressive posture" by Russia and suggested that one way out of its "veto-ridden" dilemma would be the formation of a collective system of defense, within the UN charter, of all nations which wished to join.

THE UN-SECRETARY OF state for external affairs, in an address presented for delivery to the annual dinner of the Toronto Board of Trade, criticized the United Nations for its "irresponsible and selfish" enlargement of the use of Security Council veto "to anything contemplated when the charter was drafted."

Without mentioning the United States by name, Pearson described the present predicament of the UN as a "pressure, on the one hand, friendly and almost unconscious, on the other, indignant and ruthless," and finding it difficult to avoid interference with either one or the other.

He said the early post-war hope of friendship and cooperation had been "bitterly disappointed" and reduced to the point where "there is less feeling of one world in a political or spiritual sense at this moment in history than at any time since the breaking of the Roman empire."

He said that any abandonment of the UN would be "catastrophic" he called for cool and temperate consideration of the situation.

He said that any abandonment of the UN would be "catastrophic" he called for cool and temperate consideration of the situation.

POLICE COURT

Man Convicted Of Theft of \$50

George J. Ward, of no fixed abode, was convicted on a charge of stealing about \$50 from John Sembir, a native, when he appeared before Magistrate A. I. Miller Tuesday morning. Accused was given a six-month term of imprisonment. On an additional count of illegal possession of liquor, he was fined \$30 and costs of 30 days.

Sembir told the court that the accused took the money from his shirt pocket while in the washroom of the Arrow Cafe on 96 street last Sunday night.

Ward stated in his defence that complainant had given him the money to make a liquor purchase. This was shortly after 11 p.m. Two hours later police picked up the accused in a chop-awee cafe. Part of the money they found on his person, the remainder the accused had left at a city hotel.

Johnson's Cafe Strike Is Settled

Strike of the employees of Johnson's Cafe was settled by the signing of an agreement between the employer and the union, according to an announcement made Tuesday morning by Joseph Cherrington, executive agent and organizer of the Edmonton Restaurant and Hotel Employees' Union.

The strike, which originally included the American Dairy Lunch, commenced on Jan. 16. The union workers went back to their jobs at the American Dairy Lunch last Friday morning.

The agreement signed Monday night comes at all the terms of the recent decision of a board of arbitration, and also includes a maintenance-of-membership clause. Under the new agreement, the following wage scale will prevail: waitresses—\$21 per week, plus board; dishwasher—\$21 per week, plus board; and hangers \$18 per week, plus board.

Negotiations were re-opened last Saturday when Carl Berg, vice-president of the Canadian Congress of Labor, intervened, stated Joseph Cherrington.

Since Saturday three meetings between the union and employer were held.

Red Cross Worker, Miss Watson, Dies

A well-known member of the Canadian Red Cross, both in Canada and overseas, Miss Faith G. Watson of Toronto, passed away Sunday in an Edmonton hospital after a brief illness. At the time of her death she was only 34 years of age. She was the only Canadian to be elected to the Canadian Red Cross Blood Transfusion Service.

Miss Watson graduated from the University of London in Dietetics in 1929. At the outbreak of war she was one of the first Canadian girls to join the Canadian Red Cross in England, and served as a dietitian first in Maple Leaf Club No. 1, and later in Club A in London.

Before returning to Canada, Miss Watson trained in laboratory work in Leeds, England, under Dr. A. S. Stansbury, National Director of the Canadian Red Cross Blood Transfusion Service.

She returned to Canada in 1946 and took further training at the Toronto Provincial Laboratory.

In 1947 she went to Vancouver as a laboratory technician and assisted in the organization of the Blood Transfusion Service in British Columbia. With the outbreak of the Blood Transfusion Service in Alberta she was posted to the Edmonton hospital where she was senior laboratory technician.

Miss Watson was 28 years old and is survived by her mother who is at present in England, and a brother, David Watson, in Trinidad. An uncle and aunt, Mr. and Mrs. Beaman, and two cousins, reside in Chichester, England.

Funeral arrangements are pending.

Teachers' Pension Request Studied

The government is giving consideration to applications from the Alberta Teachers' Association for higher teacher pension. Hon. R. Earl Askey, minister of education, said on Tuesday, he said an early announcement may be made.

The Teachers' Association requested at their convention last fall that teachers' pensions be closely aligned to the pensions paid to civil servants.

This aspect of the question which was receiving government consideration, the minister said.

Edmonton Burns Club Honors Memory of Immortal Bard

300 Pay Tribute to Bard

City's Scots Recall Robbie Burns' Life

Robert Burns was brought to life in verse and in object lesson at the annual meeting of the Edmonton Burns club held in the Macdonald hotel Monday night.

About 300 Scotsmen assembled to pay tribute to the immortal Scottish bard.

Main speaker of the night, Professor A. S. R. Tweedie, spoke of the teachings Burns gave in the expression of free speech and posed the same as a challenge for present day people to take up. After tracing Burns' life from childhood, he stated that we have an opportunity of exerting more influence in this direction through our daily lives than Burns had in his life time.

Prof. Tweedie stressed the philosophy of Burns' teachings and findings and their value to the world today. The Scottish poet's 180th anniversary. He told of how Burns' days of life have proved through the years and pointed out the benefits to be gained in the lessons of Burns' personality.

ALEX. M. MACDONALD paid tribute to Scotland and Canada in his home and told of how the Scotman has adapted himself to this comparatively new found land.

The bagpipes, handled by Arthur Miller and Harry Lunan, gave the real touch of Scotland to the affair as they paraded in full Highland dress.

Alex. Frame paid tribute to the bagpiper as it was piped in and must of his meaning was expressed in the words.

"Auld Scotland wants nae skinning those japs in haggies; Gie her haggies, Gie her haggies."

CHAIRMAN and hostmaster of the Scottish gathering was Alex. Cunningham. He introduced the speakers and entertainers to the guests who were described in his words as:

"Some merry, friendly country. Together did convene."

A highlight of the evening was the singing of the club's bagpipes, led by the club by Robert Muir. The history was compiled by Tom Campbell, and the club's bagpipes, led by the club by Robert Muir. The history was compiled by Tom Campbell, and the club's bagpipes, led by the club by Robert Muir.

The theme of the gathering was also expressed in Burns' words: "Shall brothers be man the world over."

Prior to the banquet the meal was blessed by the club chaplain, Rev. K. C. McLeod.

SOLOISTS during the evening were L. Col. W. T. Cronin, Haggis Gillespie, Donald Avision, Bill McGarvey.

The chorus consisted of Tom Campbell, Haggis Gillespie, Ed McGarvey, Bill Smith, Bob Steele, Alexander James, Jack Muir, Bill Muir, Bill Cronin and Donald Muir.

The musical program was directed by Ralph Cooper.

Theatre Critics Kind to Mae West

LONDON, Jan. 27.—(AP)—Theatre critics generally were kind yesterday to Mae West as star of "Diamond Lil."

But of her writing of the play, which opened Saturday, they applied such adjectives as vulgar, indecent and obscene.

Will Be Issued in Federal Capital

Experts Will Make Report On Alberta Gas Reserves

Report of the Ottawa committee studying Alberta's gas reserves will be issued in the federal capital by Dr. J. S. Hume, federal director of geological survey, and Alexis Ignatieff of the department of mines and resources.

It was learned on Tuesday, the two scientists have completed their on-the-spot survey and have collected information made available to them by the local department of lands and mines.

They are said to be studying the material they collected here and will report to their Ottawa superiors.

Though two Alberta men were also appointed to the commission by the provincial government, work of the study was carried on entirely by the Ottawa men, assisted by statistical and other information furnished by the department of lands and mines. Alberta men selected were W. J. Dick and M. R. Crook.

DISCLOSURE that supplies of gas were as plentiful as shale reserves in the Leduc sector of the Edmonton basin, the discovery of the points of the fuel at Mervin, St. Paul and Westlock have added to the province's known potential of gas from the province.

Each new discovery of the fuel in commercial quantities brings close the possibilities of exporting gas from the province.

Federal government incorporation of the province's known potential of gas from the province, the discovery of the points of the fuel at Mervin, St. Paul and Westlock have added to the province's known potential of gas from the province.

There had been a previously announced project to export the natural fuel to Canadian and American Pacific coast cities but the Alberta government, by order in council, prohibited the export of gas from the province until such time as it was determined that reserves were sufficient to look after local needs.

But now a government employees emphasize the difficulties facing the province. The gas reserves are so plentiful that much is known of subsurface conditions in the province. The gas reserves are so plentiful that much is known of subsurface conditions in the province.

Stettler Principal New School Supt.

Appointment of Stettler W. Hooper, Stettler school principal to the post of superintendent of schools in Peace River school division was announced on Tuesday by Dr. W. H. Smith, deputy minister of education. Mr. Hooper succeeds H. R. Wilson, who was recently transferred to the superintendency of the Edmonton division.

Mr. Hooper will take over his new duties as soon as possible. He is a graduate in education from the University of Alberta.

Magnificent Picture Booked Empress

RED STALLION, one of the big red pictures to come to Edmonton, is coming to the Empress starting at 12:30 Friday.

RED STALLION is a natural color picture and filmed entirely in color. It is the magnificent Mount Shasta country in northern California, one of the finest of the kind. It presents some of the most thrilling sequences ever filmed in color.

The picture is a story of a young man and a young woman who are in love. They are in love with each other and are in love with each other.

Army Ordnance Officer Here

Posted to Edmonton's Head quarters Western Command (Army) and duties in the Ordnance Department, Capt. Kenneth R. Russell, formerly of Ottawa, has arrived in the city from Calgary.

Prior to his appointment as an assistant to the Commanding Officer, Capt. Russell was on duty at the Ordnance Department where he has been stationed for the past 16 months.

Capt. Russell joined the RCRC in 1934. Since that time he has served in various capacities in the Ordnance Department, including his present assignment as an assistant to the Commanding Officer.

Capt. Russell is a member of the Ottawa Headquarters team. He has been in the Ordnance Department since 1934.

DISTRICT NEWS IN BRIEF

Veteran C.N.R. Agent Retires at Camrose

CAMROSE, Jan. 27.—Richard David Ireland, who has been the local Canadian National Railways agent at Camrose for the past 22 years, will be retiring under C.N.R. pension rules on Feb. 2, 1948.

MR. IRELAND was born Feb. 2, 1886, and educated in public and high school at Teeswater, Bruce County, Ontario. He worked intermittently for the Canadian Northern Railways from 1902 to 1905 and in 1905 he was permanently engaged by the Canadian Northern Railways with his first assignment at Invermay, Saskatchewan. In 1922 the Canadian Northern Railways was incorporated into the present Canadian National Railways, and he was transferred to Battleford, Saskatchewan, for three years. He spent 17 years at Mankinville before coming to Camrose 22 years ago.

HE WAS MARRIED at Mankinville, Alberta, in 1910 to Agnes Brown. Mr. and Mrs. Ireland have four children, two boys and two girls. Both Wilfred and Arthur served in the last hostilities. Wilfred, now in at Kelowna, B.C., while Arthur is stationed at Ft. Lyster, with the air force at Toronto.

Evelyn is a nun at St. Vincent's Hospital at Vancouver and Mrs. Helen MacArthur is married and teaching in the high school at Lacombe.

Mr. Ireland is 62 years of age and his retirement falls on the same date of his birth. Mr. Ireland served on the town council at Camrose for six years as councillor and was very active in church work in the United Church at Camrose, being chairman of the board for a period of 12 years. He is also active in Masonic work.

Mr. and Mrs. Ireland were feted at a banquet at the Albee Hotel recently when a Masonic ring was presented by C.N.R. employees and well-wishers to Mr. Ireland and two bouquets of flowers to Mrs. Ireland. Mr. and Mrs. Ireland will reside at Victoria, B.C., upon retirement.

Visit Edmonton
PERINTOSH, Jan. 27.—Educational trip to Edmonton was taken recently by 16 students of the intermediate room, at the Perintosh school. They were accompanied by their teacher, Miss Olga Melnyk. The Rev. Victor A. Lindgren, president of the school board, also made the trip.

Returns From England
STUVAN LAKS, Jan. 27.—Mrs. N. W. Vanson and her son Rommie have just recently returned to Sylvan Lake from a three-months visit in England.

Thorsby Wins
THORSBY, Jan. 27.—Thorsby Juniors, recently defeated the Leduc Juniors 4-1 in a close hockey

Prize French Film To Be Shown Here

"Un Carnet de Bal," French film which won the gold cup award at the Venice cine exposition in 1937, is being presented for public exhibition in Edmonton Wednesday evening under auspices of the Alliance Francaise. The Julien Duvivier film, with France's leading screen stars, will be screened in the medical building, University campus, at 8 p.m. Wednesday, Jan. 28. The public is invited.

game here. The National Film with any degree of pleasure to the blackout did not worry the censors. How long this situation will last is being given much thought, as screen lights may be turned off also.

Strike Affects Curlers
HANNA, Jan. 27.—Because of the coal miners' strike, the Canadian Utilities plant in Drumheller is unable to generate sufficient power to meet the demands placed upon it. For this reason the local curling and skating rinks had no lights last Thursday. Warm weather made the ice too soft to curl.

Mr. Hargis presented a very interesting and educational show in Thorsby recently.

Leaving Pollockville
HANNA, Jan. 27.—Miss Marjorie Foster of Pollockville, who has been employed as a stenographer, will leave at the end of this month for a position in Edmonton.

THORSBY, Jan. 27.—Thorsby Juniors, recently defeated the Leduc Juniors 4-1 in a close hockey

Pioneer Bawlf Woman Dies

BAWLF, Jan. 27.—Mrs. Beret Anna Anderson died at the home of her son, R. Anderson of Bawlf, recently, at the age of 71 years. Born in Treaford, Norway, she came to Chicago in 1896, and was married to Edwin Anderson in 1903. She and her husband moved to a homestead north of Bawlf in 1908. Her husband predeceased her in 1925.

She is survived by two sons and two daughters, Robert of Bawlf, John of Lethbridge, Mrs. E. J. Fox of Edmonton, and Mrs. W. L. Marshall of Bawlf, seven grandchildren, and one brother, Nes, Kasperen of Norway.

The funeral was held at the Hegre church with the Rev. S. Stole officiating. Interment took place in the Hegre cemetery.

Hospital Auxiliary Formed at Consort

CONSORT, Jan. 27.—A hospital auxiliary was formed here recently to raise funds for the supplying of nursing supplies to the new municipal hospital. Officers are:

President, Miss Elaine McFetridge; vice-president, Mrs. Martha Robinson; secretary-treasurer, Miss Margaret Mitchell; Mrs. Lucille Kneeger, Mrs. Shirley Henke and Miss Ivy Thornton.

Members of this auxiliary will be asked to see and meet for the hospital during meetings which will be held once a month.

Fifteen young ladies met at the home of Mrs. Margaret Mitchell recently to form an Evening Auxiliary to work in connection with the Ladies' Aid of the Consort United Church. The officers elected are as follows: president, Mrs. Evelyn Boyd; vice-president, Mrs. Gertrude Lamberti and Mrs. June Jueland; secretary-treasurer, Mrs. Margaret Mitchell; literary secretary, Mrs. Joyce Booth; literature secretary, Mrs. Gerda Holtzman.

There is at present no hope of renewing teeth in mature or elderly people who have lost their natural dentition. He reported, but the offer a challenge to dentists to make the most of its possibilities, which may be greater than the limited first trial.

Reporting to the annual conference of University of California dental alumni, Dr. Apfel disclosed he had been transplanting tooth buds in young patients for two years.

At present, he said, six patients each have one solid newly-grown tooth which they have been chewing for more than a year. Twenty-five others have transplanted teeth in various stages of

Hold Last Rites Ponoka Doctor
PONOKA, Jan. 27.—Funeral services for the late Dr. R. C. Novak, staff member of the provincial mental hospital here who died last Wednesday, was held Friday at the Barclay Funeral Home here.

The passing of Dr. Novak constituted a loss to this institution which cannot be overestimated. Dr. R. B. Maclean, superintendent of the hospital, stated.

The work he was doing here was of a quality hard to replace," Dr. Maclean added.

Pyromaniac Causes 17 Fires in California Forest

Set by a pyromaniac who sowed the fields with worthless incendiary bombs, this inferno and a cluster of oil wells two miles south of Newhall, this is the 17th fire which has been deliberately set in the past few days, the fire officials said.

Marvel of Modern Dentistry

Oral Surgeon Now Transplants Wisdom Teeth Young Patients

SAN FRANCISCO, Jan. 27.—(AP)—A dramatic achievement in dentistry, the successful transplanting of wisdom teeth in the jaws of young patients to fill the gaps caused by the loss of regular molars, was reported yesterday by Dr. Harland Apfel, San Pedro, Calif., oral surgeon.

The value of this accomplishment, a long-sought goal in dental science, will require the test of time, but already it holds promise, of sparing many people from bridge-work or dental plates in early life, Dr. Apfel said.

There is at present no hope of renewing teeth in mature or elderly people who have lost their natural dentition. He reported, but the offer a challenge to dentists to make the most of its possibilities, which may be greater than the limited first trial.

At present, he said, six patients each have one solid newly-grown tooth which they have been chewing for more than a year. Twenty-five others have transplanted teeth in various stages of

Boss or Nothing Barney, King Elk, Kills Rival in Bloody Battle

NORTH BAY, Ont., Jan. 27.—(CP)—Snow was churned up by massive hooves and small trees lay uprooted in a great circle around the battleground of a fight to the death between two elk, a scene dramatic and brutal. The prize animal struggle was fought last Saturday at the fish hatchery a few miles northeast of here where the North Bay Chamber of Commerce maintains a herd of elk 20 strong.

Principals in the bloody fight were Barney, undisputed monarch of the herd, and a newcomer, Barney. A 500-pound giant, is nine years old and one of the first of the group to be brought here.

A few weeks ago, chamber officials brought some new members to the herd. Among them

This tendency of the system to absorb or cast off foreign matter is the body's first line of defense against such things as splinters but is a drawback to scientists attempting to replace missing parts with transplants.

The transplanting process thus far has been limited to patients between 12 and 19 years of age.

ONE A DEVELOPING tooth is transplanted, and then only at a certain early stage of its growth. It is taken surgically from its normal position in the jaw and pulled. In these cases it is a part of the same dental system, which it is transplanted and is not foreign body in the biological sense.

News Service Changes CBC Ends Fiscal Year With \$27,261 Deficit

OTTAWA, Jan. 27.—(CP)—The CBC ended the 1946-47 fiscal year with a deficit of \$27,261 despite increased revenues from radio, receiving and licensing and commercial programs. It was disclosed in the corporation's annual report tabled yesterday in the Commons by Revenue Minister McCann.

THE REPORT, which contained much information similar to that given to the radio commission of the Commons last year, said the CBC broadcast 59,795 programs, taking 17,424 hours on the Trans-Canada, Dominion and French networks.

"Continuing the trend of increased service to listeners, non-commercial programs occupied 344 hours more than during the 1945-46 fiscal year," said the report. "Commercial hours increased by 266 on the three CBC networks."

While operations on the Dominion network—made up of some CBC and some private stations—changed very little during the year, non-commercial service increased while sponsored programs decreased.

During the year a "substantial volume of business was refused to keep a reasonable balance between commercial and non-commercial programs."

DEALING WITH THE CBC's new service, the report said: "There has been a distinct change in news preference and emphasis since the end of the war. While international developments are not neglected, there is a demand in all parts of the country for a greater interchange of Canadian domestic news, particularly news of a constructive character."

Officials Find No Cause of Fire

MEDICINE HAT, Alta., Jan. 27.—(CP)—After deliberating for three hours, a coroner's jury last night was unable to assign a cause to the flash fire which swept part of the Hagley Haven of Best Home for the aged here early Saturday evening, causing the deaths of five elderly women. Fire Chief Robert Allen said there was no evidence of a gas explosion about the stove in the kitchen—the site of the blast.

There are more than 5,000 square feet of blast—marine life at which optera are a member.
